# Lema Team Building

## Your company rolls up its sleeves

Being outdoors in all weathers, having fun and working together and then enjoying delicious regional gastronomic specialities? These are the experiences you can enjoy together with your colleagues in unique natural settings. What better way to strengthen team cohesion and make a valuable contribution to environmental protection? Joint commitment creates a positive atmosphere, instils motivation and is also fun! There is a lot of work to be done in our beautiful mountains: tidying up the forests, clearing bushes, hedges, dry meadows or clearing old paths and drainage channels. It is not only about working hard to protect endangered species: nature experience, the pleasures of the table and discovering the region are also part of the program. Participants will, among other things, indulge in local hospitality and enjoy the best regional specialities.

## Registration

We put together an individual program tailored to your needs: from half-day team outings to multi-day events. We are happy to advise you.

## Additional information:

- **When:** activities take place from April to November.
- **Duration:** from half a day to a week
- **Number of participants:** groups of 10 persons and more
- **Insurance:** insurance cover during the event is the responsibility of the participants
